

GOOD TO EAT

THE FOODWASTE MANAGING APP

Sara is a 24 years old young Swiss woman living for the first time alone. The world seems overwhelming sometimes but everything is going fine. She is still adapting to her new life, but excited! Between work and home Sara loves to thrift shop, now online more than ever. She enjoys hiking and on Saturday mornings whenever it is allowed Sara loves to go to the Market and shop for bio products. What sometimes gets difficult is to manage food! Being a big foodie Sara gets easily excited with food and all the possible meals she could cook. Practicing as much as possible an environmental friendly life style, Sara feels bad for the amount of food she wastes sometimes. But no more! Gabriella, Sara's friend, told her about an App which helps people prevent food waste. Excited Sara decides to try it for herself.
