

## Setting priorities

Your course requires you to write a term paper that is due four months from now. You can choose from a range of topics that are listed on Ilias. You are not yet in a study group.

➤ How do you proceed? Rank order the steps from 1 to 8:

\_\_\_ Choose your topic.

\_\_\_ Gather information online about the various topics.

\_\_\_ Form a study group.

\_\_\_ Set goals for yourself: What do I want to achieve with this project? (e.g. get a good grade, learn a lot about a certain topic, etc.).

\_\_\_ Make a rough schedule.

\_\_\_ Ask the instructor about the content and objectives of the project.

\_\_\_ Think about the rough outline of the project.

\_\_\_ Exchange ideas with other students about the topics.

Now compare your ideas with those of your fellow students.
